

Invitation

Clean Oceans Arena 2023

Dear colleague,

It is our great pleasure to invite you to the Clean Oceans Arena which will take place November 21 and 22 at the Edvard Grieg Hotel in Bergen/Norway.

Clean Oceans Arena will represent the whole value chain needed to reduce and prevent marine plastics pollution – legislators, equipment manufacturers, cleanup organizations, technology developers, representatives from fishing and aquaculture industries and recycling companies.

We warmly welcome any organization that wants to help make a difference!

The program will offer combination of knowledge inputs and new insight from invited speakers on actual and relevant topics related to the regulation of plastic use in the ocean, circular value chains of plastic materials and technology for cleaning up and processing marine plastics.

Clean Oceans Arena will also offer the opportunity to visit an exhibition presenting outstanding and exciting technical solutions and systems, and give our participants excellent opportunities for networking and professional discussions.

Programme

You arrive at the hotel on Tuesday, November 21st, where we invite you to an informal lunch with known and new colleagues before the formal program begins. During Tuesday and Wednesday, highly qualified speakers will share their experiences and participate in debates.

On Tuesday you will also be able to visit the stands in the exhibition area, where you can get new ideas and updates from the wide range of tools and systems combating marine litter.

We will host a formal dinner on Tuesday evening, and the conference program ends on Wednesday at 12.00.

You can register for the seminar [here](#).

The deadline is October 6, 2023, and the conference fee of NOK 8.000 will cover hotel accommodations (organized by us) and all meals.

We look forward to seeing you in Bergen in November 2023!

In case of any questions, please contact our administrator, Inken Norberg:

Best regards,

Eirik Langeland

Managing Director
NOSCA Clean Oceans

Klaus Klausen Espedal

Managing director
Marine Recycling Cluster

Sponsored by

CITY OF
BERGEN

Clean Oceans Arena is arranged by the Norwegian innovation clusters NOSCA Clean Oceans and Marine Recycling Cluster.

Together we are Clean Oceans, the widest network in Norway within marine pollution with more than 80 organisations collaborating to reduce marine plastics with holistic approach.

This year's focus will be:

- International regulations and future treaties on ocean plastic
- Circular value chains and business models for ocean plastic
- Technology for detection, clean-up and processing for ocean plastic
